I worked on the homework assignment alone, using only this semester's course materials.

Hey everybody! My name is Sagar Laud. I am currently a freshman and am a CS major. Naturally I do things other than studying. In my free time I really enjoy playing basketball and soccer. In addition to this, my favorite hobby is solving the Rubik's Cube. I've gone to the national competition for this and really enjoy it. I'm leaning towards focusing on AI and Devices and am very excited that I am finally beginning college level CS courses!
